

“David’s Concrete Innovations does it again”

Every year we sit down and look at all the things we do to provide the products you have come to depend on us for. We retire some old favorites when they get tired, and add new items or improve others to make them more appealing, user friendly, and profitable. Some of the best ideas have come from you, our customers. Sometimes you have to ask very insistently to get our attention and we eventually come around if it can be done. Thank you for your help and input in the past, we are always interested in your needs.

Back By Popular Demand, 1 Piece Precast Concrete “Safety Steps”

36” and 48” wide selections, (all 7” risers)

One step to five step selections (more choices coming)

With and without stoop options (more choices coming)

Textured step surfaces for slip resistance

Fiber mesh and wire reinforced

“Add to your order” no minimum on step quantities

We now have railings 4 & 5 tread steps. These sturdy railings are made from steel with a black powder coating finish for years of durability.

“Free” forklift bracket with your first step order of \$1000.00

Remember, we also feature the “**VOBB Easy Step**” system which allows you stack and build your steps on site without the difficulty of delivery and set-up. Visit WWW.VOBB.COM and see!
